Company Data

- Small business based in Kimberly, Idaho
- Serving Southern Idaho and surrounding regions
- Founded in 2018, we now have a team of dedicated craftsmen

Differentiators

- Integrated construction and fabrication services under one roof
- Advanced digital manufacturing capabilities (CNC, 3D printing, laser, drafting, CAD/CAM)
- Custom design and build solutions tailored to agency needs
- Proven track record of on-time delivery and quality craftsmanship
- Local Idaho-based business with deep community ties and responsiveness

Core Competencies

- Commercial remodeling and additions tailored to agency specifications
- Residential new construction, remodels, and structural additions
- Custom cabinetry, closets, and shelving for functional and aesthetic needs
- CNC subtractive manufacturing of wood, plastic, composite, and non-ferrous metal parts
- Precision 3D printing for prototyping and production
- Laser cutting and engraving for signage, labeling, and custom components
- Drafting, CAD, and CAM

Past Performance

- Successfully completed commercial remodels for local businesses and municipal facilities, including Headstart and the Buhl School District
- Delivered custom cabinetry and shelving for residential and office environments
- Produced CNC-machined components for customers and commercial clients, including South Central Community Action
- Provided laser-engraved signage and parts for community events and local agencies
